Constitutional amendment to remove geographic limitations on the legislature's authority to create new school boards and provide relative to the financing of public education. (2/3 - CA13sl(A))

The proposed constitutional amendment changes references from parish school boards to local public school boards and from parish and city school systems to local public school systems. The amendment allows the legislature to provide for school board’s geographic jurisdiction. The amendment would allow the inclusion of all legislatively created school boards in the Minimum Foundation Program. The amendment would provide legislatively created local school boards the same taxing authority afforded to previously created local school boards.

The amendment will be placed on the ballot at the statewide election to be held on December 1, 2012.

Annual Total						

EXPENDITURE EXPLANATION

The proposed amendment will be placed on a ballot at a statewide election, therefore, there will be no increase in expenditures related to elections. In the event the amendment is passed and legislation is enacted to create new school systems, new school systems could be created in geographic jurisdictions set by the legislature in the future which would allow for state, federal and local resources to be transferred from existing school systems to newly created systems. It is possible that there could be changes to the funding in the Minimum Foundation Program if new school systems are created, however, the state general fund expenditures may increase or decrease as a result of any changes.

REVENUE EXPLANATION

The constitutional amendment allows newly created school systems to raise local revenues, thus there may be increases in local revenues in future fiscal years.

Senate

Dual Referral Rules

House

☐ 13.5.1 >= \$100,000 Annual Fiscal Cost {S&H}

☐ 13.5.2 >= \$500,000 Annual Tax or Fee Change {S&H}

☐ 6.8(F)1 >= \$500,000 Annual Fiscal Cost {S}

☐ 6.8(G) >= \$500,000 Tax or Fee Increase or a Net Fee Decrease {S}
